

We are deeply indebted to Mae Bruce for saving these three scrapbooks and for her compilation of the index to the three scrapbook volumes. **Please note images of the actual newspaper clippings are available on this site at <http://www.mogenweb.org/cooper/CooperBitsBio.htm>.**

This is an index to the three scrapbooks of newspaper clippings saved through the years by Josephine Coffman of Wooldridge, Mo. Most of the clippings had no identification on them as to which newspaper they came out of or the date they were published. We can assume that most of these clippings came from the Boonville, Mo and California, Mo newspapers. The clippings cover a timeframe from early 1930's to 1990's.

The names are listed as found in the article. If a woman's maiden name could be determined from the article, it is noted in parenthesis. Any nicknames are listed in quotes. For anniversary notices, both the husband and the wife are indexed if the wife's name is noted in the article. If it is not, only the husband is listed in the index. Birth announcements are included in the index only if the announcement does not include the date of birth or if I could determine that the person had died. Although the pages do contain some birth announcements of living people that you could get a birth date from, these people are not in the index. My intent was not to make it easy for someone to gain the birth date of a living person.

The Book Number and Page Number are included in the file name that contains the newspaper clipping.
