The Register of Communicants  
1838 - 1908

**This document is contained in the Western Historical Manuscript Collection in Columbia, Missouri; Collection 2981, Roll 1 and 2. The entries on the transcription came from an older book and a much newer book. The entries on the new book were very clear and readable. The entries on the old book were clear and readable for the name. However, the remarks were either very clear and readable; or faint and difficult to make out. I did the best I could.**
