

Mount Nebo Baptist Church Records

Following are the member roll records taken at various times in the history of the Mount Nebo Baptist Church. Every attempt was taken to insure the accuracy of the transcribed records. But, obviously there will be errors as the records are sometimes faded and the handwriting was not always legible. If you know of an error, please contact us and we will adjust this record.

Mount Nebo Baptist Roll Records

This roll record is a combination of the all the membership roll records on the second reel of film. I have no idea of the date of these membership rolls, but know that they were retaken at several times during the church's history. Thus an individual may show up several times on this list. The copy is either so faint as to be unreadable or crystal clear. Often part of one entry is readable (due to part of the information being added at a much later date). If the name was readable the entry was recorded. If the copy was not faint, then this it was generally very readable.
