Can you guess this mystery baby?

Today's mystery baby is pictured here at age 8. She used to go to a country school on horseback and to a country church. She had two sisters and three brothers and still lives and farms the 1,100 acres of land where she was born. Can you guess who she is?

Boonslick area readers are invited to submit pictures of area adults taken in their childhood for the mystery baby

column. Clues to the identity of the picture and an explanation of who is in the picture should accompany the photo. A current photo of the "mystery baby" is encouraged, but not necessary.

The "mystery baby" feature will be run on a space available basis. Persons may pick up their "mystery baby" pictures as soon as they see they have been run in the paper.
